

## 2014 Riesentoter Autocross Championship Series PAX System

### Scoring

First, Second, and Third Place awards will be determined for the 2014 Riesentoter PCA Autocross Championship Series. These awards will be determined with a points-based system that uses a PAX (Professional Autocross Index) system of scoring. This is essentially a handicap system in which a PAX value is assigned to each car class and is multiplied by the driver's raw run time, resulting in a PAX time. For each event, drivers will be ranked according to the PAX time of their best run and will receive points using the following formula:

$$\text{Race Points} = (10 \text{ Points}) - (\text{Rank \#}) + (1 \text{ Bonus Point for 1st Place})$$

*\*Subject to minimum of 1 point awarded for race participation.*

Final point totals for the season will be calculated by summing each driver's **top five** event point totals. Drivers must participate in **at least 3** events to be eligible for Championship awards. Ties will not be broken. In the event of a tie, drivers will be awarded equal points, and multiple awards will be presented.

Drivers are responsible for determining their own PAX car classification category using the framework below. Any classification disputes will be resolved by the RTR Autocross Council in its sole discretion and with finality. For any questions regarding car classification, drivers should email [axcouncil@rtr-pca.org](mailto:axcouncil@rtr-pca.org).

### Car Classification

Showroom Stock Class*		
Class	Models	PAX
<b>S1</b>	968 (All), 911 Carrera 2 (964:1990-1994), Carrera 4 (964:1989-1994), RS America (1993-1994), Boxster (986:1997-2004), Cayenne (9PA: 2003-On), Panamera (2010-On), Macan (2014-On, All)	<b>0.909</b>
<b>S2</b>	911 Carrera (993:1995-1998), Boxster S (986:2000-2004), Boxster (987:2005-On), Cayman (2006-On)	<b>0.918</b>
<b>S3</b>	911 Carrera (996:1999-2004), 997 (2005-On), 991 (2012-On, All Except 991S), 911C2 Turbo (965: 1991-1994), Boxster S (987:2005 On), Cayman S (2006-On)	<b>0.923</b>
<b>S4</b>	993 Turbo (All), 996 Turbo (Non-GT2), 997S except X51 (2005-2009), 991S (2012-On, All), Boxster Spyder, Cayman R	<b>0.926</b>
<b>S5</b>	997S X51 (2007-2009), 997S/GTS (2010-On), 996 GT2/GT3 (2002-2005), 997 GT2/GT3/GT3RS(2007-On), 997 Turbo (All), Carrera GT (980:2004-On), 991 GT3 (2014-On), 991 Turbo (2014-On), 918 (All)	<b>0.93</b>

Production Class*		
Class	Models	PAX
<b>P1</b>	356 (All), 912/912E (All), 914/4 (All), 924 (All), Cayenne (9PA: 2003- On), Panamera (2010- On), Macan (2014-On, All)	<b>0.91</b>
<b>P2</b>	911 (1965-1969), 911 (1970-1977), 914/6 (All), 924S (all), 924 Turbo (931: All), 944 (All), 944S (All)	<b>0.92</b>
<b>P3</b>	911SC (1978-1983), 911 Carrera 3.2 (1984-1989), 911 Speedster (1989); 944 Turbo (951: All), 928 (All)	<b>0.925</b>
<b>P4</b>	911 Carrera 2 (964:1990-1994), Carrera 4 (964:1989-1994), RS America (1993-1994), 944S2 (All), 968 (All), Boxster (986:1997-2004)	<b>0.94</b>
<b>P5</b>	911 Carrera, Carrera S, C4S (993: All), Boxster S (986:1997-2004), Boxster (987:2005-On), Cayman (2006-On)	<b>0.95</b>
<b>P6</b>	911 Carrera (996:1999-2004), 997 (2005-On), 991 (2012-On, All Except 991S), 911C2 Turbo (965: 1991-1994), Boxster S (987S:2005-On), Cayman S (2006-On)	<b>0.955</b>
<b>P7</b>	997S except X51 (2005-2009), 991S (2012-On, All), 993 Turbo (All), Boxster Spyder, Cayman R	<b>0.958</b>
<b>P8</b>	996 Turbo (Non-GT2), 997S X51 (2007-2009), 997S/GTS (2010-On), 996 GT2/GT3 (2002- 2005), 997 GT2/GT3/GT3RS (2005-On), 997 Turbo/Turbo S (All), Carrera GT (980:2004-On), 991 GT3 (2014-On), 991 Turbo (2014-On), 918 (All)	<b>0.96</b>

Improved Class		
Class	Models	PAX
The improved category is for street vehicles with modifications beyond those allowed in the Production Category. The modifications are limited but much more liberal than those in the Showroom Stock or Production Categories.		
<b>I01</b>	Improved Automobiles (All 4 Cylinder, and All 6 Cylinder, up to 2399cc)	<b>0.937</b>
<b>I02</b>	Improved Automobiles (All 6 Cylinder above, 2400cc All Turbo/Supercharged 4 Cylinder; All Turbo/Supercharged 6 cylinder)	<b>0.96</b>

Modified Class		
Class	Models	PAX
The M classes shall also include factory racecars, GT cars and the like.		
<b>M01</b>	Modified Automobiles (All 4 Cylinder, and All 6 Cylinder, up to 2399cc)	<b>0.955</b>
<b>M02</b>	Modified Automobiles (All 6 Cylinder above 2400cc; All Turbo/Supercharged 4 Cylinder; All Turbo/Supercharged 6 cylinder)	<b>0.98</b>

#### Classification Notes:

1. Any unmodified car models not listed in the showroom stock classification list will receive a PAX score equal to the respective P Class PAX minus 0.02.
2. Any non-Porsches racing in RTR events will be assigned a PAX of 1.0.

Modification Details	
<b>Stock Class</b>	No modifications are permitted. The vehicle shall be as delivered from the factory, including wheels and tires. Tires with a tread wear rating of less than 140 shall place a car into P class. Non-performance affecting cosmetic changes may be permitted at the discretion of the Autocross Chairman and the Autocross Council.
<b>Suspension</b>	Aftermarket shocks, struts, bushings, sway bars, springs and torsion bars are allowed in P classes. However, stock mounting points are required. No machining. (P)Shock Absorbers: Any shock absorber may be used provided it has no more than a single adjustment."
<b>Exhaust</b>	The addition of a performance exhaust is permitted in P classes. However, all cars must pass noise restrictions for the event to compete. The Chairman reserves the right to reject or disqualify any excessively noisy vehicle.
<b>Lightening</b>	The removal, exchange or replacement of any part for the purpose of lightening a car will put a car into Improved class if the total weight reduction exceeds 100 lbs. This includes the removal of rear passenger seats; however, the removal of the rear seats for the installation of a cage or roll bar will not be considered lightening. Cars with limited weight reduction may be placed in the Production class, however, they need to retain all required road equipment in order to be street legal. Example: headlights, brake lights, passenger seat. No lightening (as defined above) is permitted in the Stock class.
<b>Wheels</b>	For Production Class, rim width may be increased by up to 1.0" over the widest rim available from the factory, but all wheels must be the same diameter as available from the factory for the model range of the automobile. For Improved Class, any diameter wheel can be used, and wheel width may be increased up to 2.0" over the widest rim available from the factory.
<b>Tires</b>	TAII DOT approved tires are allowed in (P&I) Production & Improved classes, and must have tread visible at two spots 180 degrees apart at the end of an event. Competition tires must have visible tread depth indicators. All non-DOT approved tires put a car into (M) modified class. At no time may a tire with visible belts showing be allowed to run in any class. Cars with rubbing tires will not be permitted to run during an event. Modifications beyond 'rolling' the fender lip to accommodate larger wheels and tires will put a car into Modified class.
<b>Engines</b>	Modifications between the exhaust manifold and airbox will place a car into Improved. Increase of boost pressure via mechanical (spring or modification to turbo unit) or electronic (chip) methods will place a car into Improved. Engine swaps are permitted in Improved provided the engine and transmission installed are Porsche based.
<b>Transmission</b>	Modification to the gearing/gear ratios of the transmission and/or differential will place a car into Improved class. Production class cars can run a limited slip differential provided it is a factory unit. Aftermarket LSD units place a car into Improved.
