2026 Autocross Schedule

Start your engines!

For 2026, Riesentöter is once again joining forces with the Central PA and Northern NJ Regions of the Porsche Club of America to bring you the ultimate, five-event autocross series at one of the best venues around: Pocono Raceway. For our July event, we are kicking things up a notch with an all-new 2-day Zone Challenge format (you can race one or both days).

And, back by extremely popular demand will be our RTR Car Control Clinic at the Temple-Ambler Campus. This is geared toward those who are new to high-performance driving and will focus on imparting RTR members with essential car control techniques in a fun, low-pressure setting, while giving them a taste of RTR's many opportunities for high performance driving and more advanced instruction.

Mark your calendar now, because these are not events to miss. Autocross at Pocono is an autocrosser's dream. You will be weaving through the turns of the Pocono South/East Infield Course (an actual race track!) while navigating stretches of slaloms, chicanes, and other cone obstacles that are nearly as long as the grin that will be on your face. These are efficiently run events that usually result in a run count that meaningfully exceeds that of a typical autocross event. You all bought those exciting cars to experience their exhilarating performance. This is the best place to discover the potential and feel of your beautiful Porsche in a controlled environment with no chance of getting that dreaded ticket.

Event Calendar & Registration Details:

Date	#	Event	Registration Link
May 24	1	**RTR/CPA-PCA/NNJR, Pocono Raceway**	https://www.motorsportreg.com/events/may-24-sun-pocono-autocross-pca-1-raceway-northern-new-jersey-events-478485
