When You Arrive at an Autocross Event

What to Expect

The Autocross course will be setup on a large parking lot. Soft traffic pylons will be used to form a course consisting of turns, slaloms, and straight areas.

- Remove all loose items from your car
- Register yourself. Many events will have preregistration on www.motorsportreg.com
- Drive your car to Technical (Safety) Inspection
- Walk the Autocross Course at least twice. There will also be a Novice course walk.
- Attend the Driver's Meeting

It's that simple, now you are ready to compete against the clock and your fellow PCA members

Please bookmark this link, mark the important dates in your calendar now and check out the forum regularly for new updates. If you have any other questions, please feel free to email me at autocross@rtr-pca.org.
